

Pure Gold 2000mg

- LIQUID

The most concentrated product within Kannaway's popular Pure Gold line, delivering an incredible 2000 mg of CBD in each 4-ounce bottle -- roughly 67 mg of CBD per serving. Pure Gold 2000 mg is made with our highly sought-after broad-spectrum hemp oil to present the invaluable balancing benefits of CBD and hemp oil with the reassurance of non-detectable amounts of THC. Kannaway Pure Gold 2000 mg has been officially certified by BSCG (Banned Substances Control Group), well regarded by athletes and sports organizations and considered by many to be the gold standard in the dietary supplement and natural products industry. Combined with nutritious MCT oil to naturally enhance bioavailability, this gold-colored CBD oil can be enjoyed on its own or added to smoothies or other foods and beverages.

Administered by highly experienced quality assurance and verification professionals, the U.S. Hemp Authority™ Certification Program is an industry initiative specifically designed to educate hemp farmers and processors in FDA Current Good Manufacturing Practices (CGMP) and Good Agricultural Practices (GAP). Hemp growers who comply with the U.S. Hemp Authority Guidance Program, and are verified by a 3rd party audit, will be authorized to use the U.S. Hemp Authority™ "Certified" Seal in their advertising materials. This seal provides consumers and law enforcement officials with a sense of confidence that their products are safe and of the highest possible quality.

In 2014, Kannaway became the first direct selling company to distribute CBD products. From the nutrient-rich farms in which we cultivate our hemp to our rigorous Triple Lab Testing™ process, we are committed to providing our customers with a true Soil to Sale™ experience, delivering the highest grade CBD products on the market today.
