Administered by highly experienced quality assurance and verification professionals, the U.S. Hemp Authority™ Certification Program is an industry initiative specifically designed to educate hemp farmers and processors in FDA Current Good Manufacturing Practices (CGMP) and Good Agricultural Practices (GAP). Hemp growers who comply with the U.S. Hemp Authority Guidance Program, and are verified by a 3rd party audit, will be authorized to use the U.S. Hemp Authority™ “Certified” Seal in their advertising materials. This seal provides consumers and law enforcement officials with a sense of confidence that their products are safe and of the highest possible quality.
